# Our Story So Far

## OUR MISSION

The mission of My Father's Kingdom is empowering people in poverty to excel and achieve sustainability. We believe that in God's economy we live in a world of "enough". Our challenge is to consider how best to multiply the talents that we've been given in a way that elevates the lives of all of the beloved community. In 2023 we continued our work in several communities in Colombia. We began a new support initiative with the local youth in Portland Jamaica. All the while our footprint for ministry here in the US, continues to expand. All Glory to God!

## OUR PURPOSE

We live out our mission by partnering with programs that serve communities in need; leveraging our resources to impact the lives of people in those communities for the better, and assist in creating transformative and lasting change in the quality of life.

God is at hand..."**

The gift of a second language can be a blessing for many, leading to many additional opportunities.

We are using the gifts of God's people to bring those blessings to fruition.

By being a part of our Bilingual Blessings initiative you have the opportunity to: sponsor children so that they may learn English, learn Spanish as a second language for yourself, or do both.

In many countries outside of the United States, the ability to speak English is a highly sought after job skill. By aiding the youth and young adults in acquiring that skill, we enable them to aid themselves and the community around them.
